

French-Indian Workshop
ENS-IISER
Monday May 10th – Tuesday May 11th, 2021
On line

Day 1 - Exchange of practices on Education & Pedagogical approaches

Day 2 - Adaptation to online teaching

Detailed program follows

The ENS IISER cooperation network, with the support of the French Embassy in India, is hosting its first French-Indian virtual workshop.

The partnership has been developing since 2016 when the first delegates from the 4 ENS in France carried out an exploratory visit of the Indian Institutes of Science Education and Research: <http://www.iiseradmission.in/>

Strong academic and scientific links were immediately identified as were common core values and mindset. Five years later, in spite of the global pandemic, the network is proud to publish successful results especially regarding the ENS/IISER Internship Program, several very satisfying bilateral visits to reinforce scientific collaboration and diplomatic relations and now the organisation of the first virtual workshop.

This workshop will be focused on the exchange of practices on education and pedagogical approaches, as well as the adaptation to online teaching in the current pandemic context.

To attend the workshop, please send an email to ri@ens-paris-saclay.fr with your full name before **May 6th**.
